Building Containerized-IoT Computing Platform

A. Paper Lists & Other References

1. **Distributed Analytics in Fog Computing Platforms Using Tensorflow and Kubernetes** (APNOMS 2017)
2. **From Cloud Computing to Fog Computing: Unleash the Power of Edge and End Devices** (Cloudcom2017)

B. Proposed Experiments

1. 按造 **Distributed Analytics in Fog Computing Platforms Using Tensorflow and Kubernetes** 描述實作 IoT 的運算平台(1 **server** + multiple **Rpi**)。

2. 探討若有 GPU or FPGA 等非 CPU 的資源成為 Fog Computing 的節點,會需要做什麼修正。
